

## **REEL NORTH**

**It started out in '98 but it came to pass at the turn of the century  
We were young and ready for adventure in the land of water, rocks and trees**

**We packed our gear and we drove to Missinipe  
Loaded up the planes with the help of the Osprey crew  
Headed out cross Otter Lake, cross the old green bridge and the mighty Churchill too  
Wayne Wood was our pilot that day  
His steady hand brought us safe to our newfound home  
Now we live and we work and play  
In the land where the trapper Henry roamed**

**McTavish Lake I'm gonna stay, don't ever want to leave  
Cause spending time here makes me whole and teaches me to see  
That in this world there's still someplace the simple life survives  
And every day I'm in this land makes me glad to be alive**

**It started out in 98 but it came to pass at the turn of the century  
We were young and ready for adventure in the land of the water rocks and trees**

**McTavish Lake I'm gonna stay, don't ever want to leave  
Cause spending time here makes me whole and teaches me to see  
That in this world there's still someplace the simple life survives**

**And every day I'm in this land makes me glad to be alive  
And every day I'm in this land makes me glad to be alive**

**Lyrics and Music by Brian Goodwin**
